## What is PodioBox?

---

PodioBox is the all-in-one system for those who work in live event field. This platform was developed to make an efficient, professional and convincing presentation.

PodioBox solves the most important performance problem – it helps to build the effective collaboration between all participants without installation of multiple applications.

# Benefits of PodioBox

---

PodioBox assists to manage and perform presentations in fast and easy way. This new generation product resolves all hardware/software compatibility issues.

---

## Offers to the planners

PodioBox has features especially developed to improve the day by day work of event organizers:

- ✔ save money thanks to the automatic webcast recording;
- ✔ use unlimited number of beamers and digital signages situated in different rooms without cabling, with the same or different content;
- ✔ allow remote speakers to perform a presentation without external videoconference software;
- ✔ collect in analytical overview all the information gathered during the conference;
- ✔ easily manage mp4 and online video during performance;
- ✔ always get the last updated version of presentations, thanks to the Google Slides integration;
- ✔ keep several presentations in the storage space and manage the order of sessions;
- ✔ allow the speaker to upload and test his presentation in private online area at any time before the performance.

## 2 What about interaction?

PodioBox offers the “standard interactive package”, like slides and documents sharing, polling and survey (with unlimited number of questions and results in real time), feedback from attendees to the speaker in real time, digital agenda, speaker’s prompter, live video streaming, integrations with Google Drive, Slideshare, Dropbox, Youtube and much more.

# Suits to any gadget

PodioBox allows speakers and attendees to use any device browser (PC, laptop, tablet, smartphone) and even the Apple Watch as remote. All devices with a wifi adapter can be connected to the system.

A man in a dark suit is seen from behind, standing at a podium. He has his right arm extended, gesturing towards the right. On the podium in front of him is a computer monitor displaying a blue screen. The background is a blurred audience in a conference room or auditorium.

# 3 Why PodioBox?

---

PodioBox has more than 20 different functions and features. Only 9 from them exist in the market, others don't have any analogs yet. And for sure, this is the unique product combining all these functions in one system.

This plug-and-play platform empowers the user to manage all the organizing chaos from one single epicenter.

All you need is to plug and play.  
We'll take care of the rest.
